

Breast Cancer Survivor – Interview Questions

1. When were you diagnosed and at what age?
2. What stage were you diagnosed with?
3. How was the cancer initially detected? (i.e. through a BSE, a CBE or an annual mammogram)
4. How did you feel when you first received the news?
5. Is there a family history of breast cancer?
6. Did you have a support network? If not, how did you overcome it or find it?
7. Tell me about your treatment process.
8. Were there any programs or services offered to you that would help with the treatment process?
9. Did you face any obstacles during your treatment process? If so, how did you overcome these obstacles?
10. What message would you like to provide women in the community?
